

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

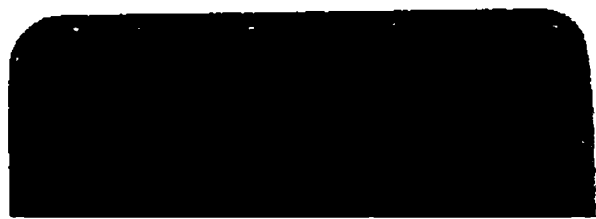

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. Volume Eleventh.

GLASGOW :
PRINTED BY ROBERT MACLEHOSE,
At the University Press,
153 WEST NILE STREET.
1889.

Entered at Stationers' Hall.

P R E F A C E.

WHEN the Tenth Volume of the Clydesdale Stud-Book was issued it was expected that the growth of the volumes had at length ceased, and that no further increase in size was to be anticipated. Volume Eleventh, however, while containing fewer entries of foals, caused doubtless by the great mortality amongst them in the season of 1888, contains more entries of mares and stallions than any previous volume.

The number of entries in Volume X. was as follows :—

Foals,	-	-	-	-	-	1,187
Mares,	-	-	-	-	-	1,000
Stallions,	-	-	-	-	-	951
Total, -	-	-	-	-	-	3,138

The number in Volume XI. is—

Foals,	-	-	-	-	-	1,120
Mares,	-	-	-	-	-	1,106
Stallions,	-	-	-	-	-	991
Total, -	-	-	-	-	-	3,217

The increase in new entries of mares and stallions in Vol. XI. is thus 146, and over all 79 entries.

In accepting entries the regulations which have been in force for several years were adhered to, and in one or two instances the Council have exercised a discretionary power in accordance with the precedents afforded by the earlier volumes of the Stud-Book. Any stallion or mare got by a registered sire out of a Clydesdale mare whose produce is already registered has

John Grant

been entered, and in the case of animals with pedigrees not coming under this rule the following regulations were enforced, namely :—

1. Any stallion foaled before 1st January, 1875, or any mare, having had produce, and foaled before 1st January, 1877, was entered if got by a registered sire or out of a mare got by a registered sire.

2. Any stallion foaled on or after 1st January, 1875, and before 1st January, 1879, or any mare, having had produce, and foaled on or after 1st January, 1877, and before 1st January, 1880, was entered if got by a registered sire and out of a mare got by a registered sire, or a mare already registered or eligible for registration.

3. Any stallion foaled on or after 1st January, 1879, or any mare, having had produce, and foaled on or after 1st January, 1880, was entered if got by a registered sire out of a registered dam or dam eligible for registration, or having three registered crosses of Clydesdale blood tracing through either the male or female line.

The Council respectfully direct the attention of breeders to the importance of recording all births in their studs, whether the foals survive or not. It is almost as useful to know that a mare had no foal in a given year, or that her foal died, as it is to know that she had a foal which came to maturity. Where the former information is lacking a loophole is left for unscrupulous persons to represent animals as the produce of mares with which they have no connection, and there is reason to fear that this has in some cases in the past been done.

Applications to alter descriptions of registered animals have of late become somewhat numerous, and the Council have been compelled in several instances to refuse to give effect to the proposed alterations. Great care should therefore be exercised by breeders in entering stock, as errors in descriptions frequently lead to difficulties, especially with foreign buyers, and it is impossible for the Council to alter descriptions after animals have been exported, and it is no longer possible to be satisfied as to their identity.

Special attention is directed to the following extracts from minutes regarding cancelled entries :—

JENNY OF CATYANS (6346).

Extract Minute of Meeting of Council held on 25th July, 1888.

Inter alia “the Council hereby cancels the entry of the mare Jenny of Catyans (6346) as it appears in Volume Tenth, p. 352, and Jenny of Catyans and her produce are not now to be regarded as registered Clydesdales.”

GENTLE OF CROMARTY (6695).

Extract Minute of Meeting of Council held on 10th October, 1888.

Inter alia “the entry of the mare Gentle of Cromarty (6695) is hereby cancelled, and it is hereby declared that the produce entered in Volume Tenth as out of her belongs to Maggie of Cromarty (6691), and are to be entered as such in Volume Eleventh.”

PRODUCE OF MAGGIE OF MUIRHEAD (2997), Vol. IX., p. 146.

Extract Minute of Meeting of Council held on 21st Nov., 1888.

Inter alia “the entry of Maggie of Muirhead (2997), with produce in Vol. IX., p. 146, is hereby cancelled, the produce there entered belonging not to Maggie of Muirhead but to a Campbeltown mare apparently not registered.”

The portraits of the Macaulay (5187), and Laura Lee, Vol. VII., p. 56, published in this volume, are photographs from life, reproduced by the Woodbury process, and it is hoped they may be of value for future reference. Laura Lee gained first prizes at Kilmarnock, Edinburgh, and the H. & A. S., Dumfries, in 1886, and at Kilmarnock, Ayr, Edinburgh, the H. & A. S., Glasgow, and Dumfries Union Shows in 1888. The Macaulay (5187), gained first prizes at Kilmarnock, Ayr, Edinburgh, and the Royal, Newcastle, in 1887, and at Kilmarnock, the Royal, Nottingham, and the H. & A. S., Glasgow, in 1888.

The following noblemen and gentlemen composed the Editing Committee for Volume XI. :—

The Right Hon. the EARL OF HOPETOUN, <i>President.</i>	} <i>ex officio.</i>
W. H. LUMSDEN, Esq., of Balmedie, <i>Vice-President.</i>

INDEX.

HORSES.

[Figures within brackets are the numbers of stallions, and figures without brackets are the numbers of mares in this volume. Roman figures at the end of line are the page numbers in this volume where the pedigree is recorded. Figures preceded by the letter s. indicate that the stallion at that number is sire of a stallion; c. that he is sire of a colt; m. that he is sire of a brood mare; and f. that he is sire of a filly.]
